

FOX clinical excellence provides your community **financial excellence.**

▶ **FOX has proven outcomes**

FOX partnered with Thomas Jefferson University School of Population Health to analyze the outcomes of 56,000+ older adults in senior living and the community with an average age of 83. On average, clients demonstrate a reduced risk for frailty, which is highly predictive of dependence, inability to perform daily activities, falls, hospitalization, and poor quality of life.

Timed Up & Go Test

FOX clients show a **32%** improvement

5 Times Sit-to-Stand Test

FOX clients show a **37%** improvement
