# PRESS RELEASE

> For Immediate Release

Woodstown, N.J. – 03/18/2011 –Friends Village at Woodstown is proud to announce its partnership with Fox Rehabilitation Services.

Friends Village at Woodstown is proud to announce its partnership with Fox Rehabilitation, of Cherry Hill, to provide residents with the best possible quality of life through comprehensive therapy services.

Fox Rehabilitation began providing exceptional physical, occupational and speech therapy services to the older adults of the Friends Village Continuing Care Retirement Community on March 1, 2011. Friends Village at Woodstown has earned a reputation for excellence through its leadership in the health care community and has recognized Fox Rehabilitation as a leader in geriatric physical, occupational, and speech therapy.

“Providing high quality, individualized rehabilitation services for Friends Village residents and the community is a hallmark of our long tradition of service to Salem County,” said Tom Lyons, Executive Director. “Fox will help us continue this tradition and add new services.”

Fox is proud and privileged to provide Friends Village with a team of full-time therapists who are personable, well-qualified and experienced with geriatric patients. Each therapist works one-on-one with patients, gaining trust and forming a bond that enhances successful therapy to the entire Friends’ campus through both skilled nursing and out patient services. Fox clinicians are trained and experienced in the treatment and care plans of patients with dementia, such as Alzheimer’s, and other diseases involving cognitive impairment.

Fox believes in proactive therapy and will work with Friends Village to identify residents with potential safety risks who would benefit from skilled rehabilitative interventions. The goal is to improve strength, stamina, and balance, while significantly reducing the risk of falls. The educational and wellness programs made available by Fox will benefit both the staff and residents of Friends Village at Woodstown and enhance the already established culture of caring.

Friends Village at Woodstown and Fox believe in older adults and their ability to achieve what they once thought impossible – optimal function to rehabilitate their lives.
